## 10) INTERNAL TECHNIQUES

### HYDROCOLONOTHERAPY (VARIABLE)

LOW SEASON: ~~€ 70,00~~ - € 60,00 | HIGH SEASON: ~~€ 80,00~~ - € 70,00

Hydrocolonotherapy consists of an intestinal purification and detox.

After a deep cleanse, thermal water is introduced which, besides being a very powerful disinfectant and neutralising any infection or inflammation present in the intestinal walls, eliminates some microorganisms (bacteria) harmful to your intestinal health. This is a safe, comfortable and painless therapy that deeply cleanses and detox the mucous membranes, releasing floating debris, toxins, excess mucus and parasites. During the session, the client is lying in a relaxed position while the water travels through the colon, their dignity being fully preserved.

Treatment time varies between 30 and 60 min., not all taking the same time.
